# RUNDVISNING

Kig efter brugergrænseflader

**UI**, **User Interface** eller **Brugergrænseflade** er alt hvad en bruger kan interagere med for at betjene et digitalt produkt eller en digital tjeneste.

Det inkluderer skærm, touchskræm, knapper, tastatur, mus, lyde og lys.

En **brugergrænseflade** er bindeled mellem et system og dets bruger.

Typisk forbinder vi det med det vi ser: **Grafiske Brugergrænseflader** (GUI)

# UI

User Interface

all the ways in which a person can interact with a machine or system; including computerised systems.

# GUI

# What is HTML?

- Hyper Text Markup Language
- Standard markup language for creating Web pages
- Describes the structure of a Web page
- Consists of a series of elements (tags)
- HTML elements tell the browser how to display the content
- HTML elements can be headings, paragraphs, links, etc.

  </head>
  <body>
    <h1>This is a Heading</h1>

  </body>
</html>
```

The `<!DOCTYPE html>` declaration defines that this document is an HTML5 document

The `<html>` element is the root element of an HTML page

The `<head>` element contains meta information about the HTML page

The `<title>` element specifies a title for the HTML page (which is shown in the browser's title bar or in the page's tab)

The `<body>` element defines the document's body, and is a container for all the visible contents, such as headings, paragraphs, images, hyperlinks, tables, lists, etc.

The `<h1>` element defines a large heading

The `<p>` element defines a paragraph

Amerikanske chocolate chip cookies
Cookies
Klassiske amerikanske cookies - sprøde udenpå og bløde indeni... Og hvis der er noget de virkelig kan, derover på den anden side af atlanten, så er det at bage cookies. Om vi kalder dem Chocolate chip cookies eller bare Cookies gør nok ikke den store forskel. Der er chokoladestykker i - og de smager pragtfuldt. Prøv denne opskrift på den perfekte Chocolate chip cookie, næste gang lækkersulten banker på døren!
Ingredienser
Cookies
Blødt smør, 150 g
Sukker, (ca. 1½ dl) 125 g
Brun farin, (ca. 1½ dl) 125 g
Vanillesukker, 2 tsk
Æg, 1
Hvedemel (ca. 4½ dl), 250 g
Natron, 1 tsk
Groft salt, ¾ tsk
Bagepulver, ½ tsk
Sådan gør du
Cookies
1. Pisk smør, sukker, brun farin, vanilje og æg godt sammen.
2. Bland hvedemel, natron, salt og bagepulver og rør det i smørblandingen sammen med chokolade.
3. Del dejen i 20 stykker a ca. 45 g og form dem til kugler.
4. Sæt kuglerne på plader med bagepapir - tryk dem let flade. Kagerne flyder en del ud, så sørg for, at der er god plads imellem dem.
5. Bag kagerne til de er gyldne, men blede i midten.
6. Lad kagerne afkøle ca. 5 min. på bagepladen og flyt dem så over på en rist.
